FAX: (507) 444-4351

Furnace installation permits required.

The City of Owatonna requires mechanical permits for all new or replacement furnace, fireplaces or heating equipment installations. Permit fees are based on the complete cost of equipment and installation.

New gas lines may be installed by a home owner or Owatonna licensed gas installer and air tested and soap tested for leaks. Gas lines shall be air tested at 25lbs for 30 minutes and the appliance connections shall be soap tested beyond the shut-off valve.

New and existing CSST gas line shall be bonded.

Owatonna Public Utilities has an energy rebate program. Through cooperation between OPU and Owatonna Building Inspections a copy of the final inspection report shall be required to process rebate applications.

New electrical connections/wiring shall be subject to inspections and permits by the MN State Electrical Inspector. Please contact Mr. Michael Anthony at 507-465-3522 7:00am – 8:30am (Monday through Friday) for information.

A homeowner can install their own furnace including gas piping if they are competent to perform the work. If not the homeowner; then a mechanical contractor and/or licensed plumber (licensed as an Owatonna gas installer) is required to install the furnace and make gas line connections.

Please contact the Owatonna Building Inspection Division with the make, model and manufacturer's installation information to obtain a mechanical permit. Installation instructions must be kept with the furnace and be available to the inspector at final inspection. Inspections can be scheduled by contacting the Building Inspection Division at (507-444-4370) at least one day in advance for scheduling purposes.

Furnace installation certification and combustion air intake worksheets can be found on the City of Owatonna; Building Inspection Department's website.
